

NS Máquinas Industriais

An Introduction to the Company

Machines: Metal Finishing – Round Pipe (1/2)

ML100

ML100 3Z

ML300

ML100 2007

2003 First round pipe finishing machine ML100 (up to $\varnothing 104\text{mm}$)

2006 Three heads automatically controlled machine ML100 3Z

2006 ML300 Large pipes until $\varnothing 300\text{mm}$

2007 Restyling of ML100 – Standard dual feeding unit

Machines: Metal Finishing – Round Pipe (2/2)

ML30

MLW100

ML150

- 2007 Launch of Ø30mm round pipe machine - ML30
- 2007 Wet version of ML100: MLW100
- 2008 ML150 round pipe machine (up to Ø150mm)

Machines: Metal Finishing – Flat Pipe

LP300 2ZK

LC150 ZK

LS1000 2ZK

LC150 2ZK

2004 First flat pipe finishing machine LP300 2ZK and LP200 2ZK

2005 Economic compact flat machine LC150 ZK

2005 1000mm width machine LS1000 2ZK

2006 Two heads compact machine LC150 2ZK

Machines: Metal Finishing – Notching & Multipurpose

MBL120

LV200

LB50

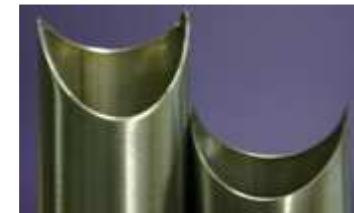

LHV200

2004 First notching machines MBL70 and MBL120

2005 Multipurpose machines LV200 and LB50

2006 LHV200 with lifting stainless steel table

Machines: Metal Finishing – Special Projects *LEB100 for Peugeot*

In 2007, by the request of *Edscha Arjal*, NS developed LEB 100 project – a grinder especially conceived for the new *Peugeot 207 Cabrio*.

That car has components of the removable roof finished in LEB 100.

Machines: Metal Finishing – 3M CAM Center

3M Customer Abrasive Methods Center, in Minnesota, USA, is “a valuable resource in the quest for innovative methods, greater productivity and improved quality. Each year the CAM Center processes hundreds of requests and hosts hundreds of visits from customers, distributors, and industry officials from around the world.”

NS is one of the trusted brands of 3M CAM Center, providing round pipe metal finishing solutions.
